

Barley Village Hall

Regular Annual Costs for Barley Village Hall

Light/Heating	£3325
Insurance	£1864
Trade Waste Bin Collection	£198
Repairs and Maintenance	£3000 to £4000

It costs £750 a month just to keep the Hall running.

Plus there are some large projects needing to be done, for example, redecoration of the inside and outside of the building, refurbishment of the large room floors, replacement or painting of nearly all the windows and refurbishment/replacement of both kitchens. The downstairs main room has a sagging floor which may require just replacement of a few timbers or maybe the whole floor. Whilst we seek help towards these projects from grant giving organisations, grants are hard to come by these days and competition is fierce. We need to find some of the money for these projects from all the users of the Village Hall.
